Research Interests

Applied Microeconomics; Labor Economics; Economics of Education.

Education

The University of Texas at Austin Austin, TX
M.A. in Economics July 2025 – December 2026 (Expected)
GPA: 3.93/4.0.

Shanghai Jiao Tong University Shanghai, China
B.Econ. in Economics, Outstanding Graduate September 2021 – June 2025
GPA: 85.89/100.

Publications

A Decision-Function Framework for Auditing Artificial Decision-Makers: Evidence from an Immigration Conjoint Benchmark
with Ke Shang (equal contribution; co-first authors).
Computers in Human Behavior: Artificial Humans, 2026, Article 100411. DOI: 10.1016/j.chbah.2026.100411

Working Papers

Generative AI and Early-Career Hiring: Counts, Entry Rates, and the Employment Base
Sole-authored. Preprint: 10.21203/rs.3.rs-11342200/v1.

Compared with Whom? Age and Reference Markets in Marital Matching
First and corresponding author; with Ke Shang. Submitted to Economics Letters.

Research Experience

Research Assistant, Shanghai Jiao Tong University April 2024 – October 2024
Advisor: Prof. Shiqi Guo.
Project: National Sentiment, Violence, and the Sales of Japanese Cars in China

- Built a panel combining Baidu Search Index, news coverage, political events, and automobile sales to study how nationalist sentiment affects demand for Japanese cars.
- Estimated difference-in-differences and high-dimensional fixed-effects models in Stata; used Python and Stata for data cleaning, merging, placebo tests, heterogeneity analysis, and figures.
- Reviewed the related literature and contributed to treatment construction and empirical specifications.

Additional Research Projects

Major Choice and Labor Market Mismatch June 2024 – June 2025
Undergraduate thesis, Shanghai Jiao Tong University. Studies labor-market information frictions in college major choice and subsequent mismatch in China.

Japanese ODA and Industrial Upgrading in China September 2023 – March 2024
Built a project-level dataset of Japanese official development assistance by extracting and coding information from textual records; linked projects to regional industrial outcomes and estimated fixed-effects and difference-in-differences models.

Honors and Awards

Phi Kappa Phi Honor Society, *UT Austin Chapter* 2026
Outstanding Graduate (Top 10%), *Shanghai Jiao Tong University* 2025
Interdisciplinary Contest in Modeling — Outstanding Winner and Vilfredo Pareto Award, *Consortium for Mathematics and Its Applications (COMAP)* 2024
Outstanding Student (Top 5%), *Shanghai Jiao Tong University* 2024
Foresight–Sequoia Talent Development Fund Scholarship (1st of 18), *Shanghai Jiao Tong University* 2024

Technical Skills

Programming: Stata, Python, R, LaTeX.
Languages: English (fluent), Mandarin Chinese (native).
